

Month 2: Daily Plan for Senior Front-End Engineer

Month 3: Build Group Video Calling App (JS + WebRTC + WebSocket)

This plan includes browser internals, security, and a different DSA problem daily.

Day	Browser/Security Topic	Coding Task	DSA Question
Day 1	getUserMedia API	Access webcam & mic	Binary Tree Zigzag Level Order
Day 2	RTCPeerConnection Setup	Create peer connection object	Find All Anagrams
Day 3	Create/Join Room via WS	Emit join-room message	Maximum Depth of N-ary Tree
Day 4	WebSocket Message Handling	Receive and dispatch WS msg	Kth Largest Element in Array
Day 5	Review UI/Flow	Test flow end-to-end	Serialize/Deserialize Binary Tree
Day 6	Mesh Network Basics	Draw mesh graph for 3 users	Diameter of Binary Tree
Day 7	Group Connection Handling	Add multiple peer tracks	Find Duplicate Subtrees
Day 8	Toggle Mute/Unmute	UI toggle mute button	Randomized Set
Day 9	Toggle Camera	UI toggle camera	Meeting Rooms II
Day 10	Review: Group Features	Test toggle states	Course Schedule II
Day 11	Screen Sharing Setup	Implement screen share	Implement Trie
Day 12	Add Chat UI	Add message box	Design Add/Search Word
Day 13	Handle Disconnection	Detect peer disconnect	Max Area Island
Day 14	Reconnection Logic	Reconnect peers	Longest Increasing Path Matrix
Day 15	Chat UX Polish	Polish chat CSS	Range Sum Query - Mutable
Day 16	CSS Layout Polish	Responsive grid layout	Design Twitter
Day 17	Add Animations	Fade in/out video tiles	Insert Delete GetRandom O(1)
Day 18	Optimize Video Quality	Adjust bitrate settings	Design Hit Counter
Day 19	Limit FPS/Resolution	Use low-res for idle users	Flatten Nested List Iterator
Day 20	Review UI Enhancements	Finalize layout	Logger Rate Limiter
Day 21	Basic Testing Setup	Write test cases	Clone Binary Tree With Random Point

Month 2: Daily Plan for Senior Front-End Engineer

Day 22	Bug Fixes	Fix audio/video sync bugs	Evaluate Division
Day 23	Write Readme	Write detailed README	Expression Add Operators
Day 24	Architecture Diagrams	Draw signaling diagram	Design File System
Day 25	Feature Walkthrough	Record feature demo	Split Array Largest Sum
Day 26	Deploy to GitHub	Push to GitHub	Count of Smaller Numbers After Self
Day 27	Final Testing + Fixes	Final QA & review	Sum of Distances in Tree
